A
Core CBF (probe 1)
Studentised residual
Shapiro–Wilk p = 0.08
Theoretical normal quantile
B
Collateral CBF (probe 2)
Studentised residual
Shapiro–Wilk p = 0.54
Theoretical normal quantile
C
Infarct volume
Studentised residual
Shapiro–Wilk p = 0.93
Theoretical normal quantile
D
Studentised residual
Fitted value (group mean)
Brown–Forsythe p = 0.69
E
Studentised residual
Fitted value (group mean)
Brown–Forsythe p = 0.89
F
Studentised residual
Fitted value (group mean)
Brown–Forsythe p = 0.65
